

# Using the Teacher AETmobile App

**Purpose:** To outline the functionality of the AETmobile smartphone app for teachers.

## Step 1: Load AETmobile on to a smartphone

Using the phone's web browser, go to <http://m.theaet.com> then:

1. Log into the Teacher account using its normal AET account information.
2. Once logged in, there are menus such as **Student Directory**, **Teacher Directory**, **New Teacher Journal Entry**, and **Chapter Calendar**:
3. This page can now be saved as a "bookmark" (Image 1.1) and **added to the phone's "homescreen"** (Image 1.2). This will create an AET icon on the phone's homepage.

## Step 2: Use AET Directory contact information on the phone

Student Directory: Includes phone, email, address, and parent names for your students.

Teacher Directory: Includes contact information of other agriculture science teachers in your region or state.

## Step 3: Complete a teacher tracker journal entry

## Step 4: View and edit the chapter tracker calendar

Add or view Calendar information.
