

Managing Student Accounts

Purpose: *This guide covers how to manage existing AET student accounts (active or inactive), password reset, and importing students into The AET from your FFA Roster.*

Step 1: Access All Student Accounts

Click "ACCOUNTS," then the "Account Manager" screen.

Step 2: Review Student Account Status

Update student grade level or archive accounts that are not active users.

1. Find Students by Grade Level:

Students can be sorted by clicking column headings. In the example below, students are sorted by **Grade**. Notice four students lack grade (graduation year) profile data.

Click column headings to sort. Highlight rows using the mouse, and then right click to change settings for groups of students.

Unique #	Name	Username	Grade	Last Access
51764	Eddy, Matt	ME		10/30/2009
686801	Clark, Jaden	JClark		never
686812	Holmes, Dallas	DHolmes		09/25/2014
686820	Mogle, Skyler	SMogle		08/22/2014
686794	Abbas, Saylor	SAbbas	9	09/23/2014
689659	Adams, Madison	MAdams	9	09/19/2014

Grade information can be updated by the student in the PROFILE section. Or, you can select the first row, hold the keyboard "shift" button, and select the last student row with no grade data to group-select these students. Then, right click to change grade level.

2. Group Students and Change Active/Inactive Status:

Students marked with grade 13 have likely graduated and can be grouped by clicking the "Grade" header. Then, click the first student row, hold "shift" and select the last row marked with grade 13. To mark all highlighted as "Inactive," right click and choose "Change Active Status."

Change Active Status

Open AET

Students marked "Inactive" remain as part of reporting, but are removed from listings of potential FFA members or managing accounts.

NOTE: *Adding new student accounts is covered in the [Teacher Getting Started](#) guide.*

Step 3: Reactivate Inactive Student Accounts

Student accounts marked "Inactive" can be made active by selecting appropriate rows, right click, then click "Change Active Status."

- Open AET

Students will then be displayed in the Active Student Accounts view.

Step 4: Edit Student Account Information

Adjust student account details and reset student password.

Select a single account by left clicking on the student's name (underlined in green).

Unique #	Name	Username	Grade	Last Access
348233	<u>Abate, Garrett</u>	gabate	11	09/22/2014
520780	<u>Abbott, Adam</u>	aabbott	10	10/02/2014

This allows you as the teacher to:

- ✓ Edit the student's first or last name (perhaps to align with FFA information)
- ✓ Edit graduation year, contact information and/or username
- ✓ Reset password

Step 5: Import Students from FFA Roster

Import current FFA member information (name and FFA number) from FFA by using the National Roster Utilities screen.

Access the **National Roster Utilities** screen by clicking the "National Roster Utilities" link found in the neon green box of the Account Manager screen.
